A Field Meeting will be held at the Mahoning County Experiment Farm, south of Canfield, Saturday, August 21. Owing to crop conditions it was thought best to hold the meeting at this time instead of the usual time late in June.

The experiments that should be of particular interest to the farmers at this time are fertility experiments with truck crops; fertility and variety work with field and silage corn; the young orchard where culture tests are being made and the variety

grapes.

The forenoon will be devoted to an inspection of the farm. Competent guides will be present. The afternoon program will begin promptly at 1:30 p. m. Representatives of the College of Agriculture, the Ohio state university and the Ohio agricultural experiment station and local speakers will discuss agricultural topics that should be of interest to every

farmer in the county.

This is the fifth annual Field Meeting to be held at the farm and we hope to make it one of the best. This is your farm and it is your meeting. Come. Bring your lunch and stay all day. Make it a day of pleasure and profit. Meet with your neighbors and discuss methods of better and more successful farming.

of done. Visiting orchards was the order of the forenoon; 30 big auto loads, about 180 horticulturists, men and women Arriving at orchard No. 3, a 40-acre apple orchard, Taggart led the way answering questions that would have baffled a Kalamazoo lawyer. He talk ed so much that he could squeak. We scattered all over the or chard, eyes open all the time and mouth open at frequent intervals talking and eating fruits. What we saw, in the form of healthy trees heavily laden with fruits, orchard mulching, correct pruning, etc., will not soon be forgotten. What we did not see was not in the orchards.

Fif ty acres planted this season. Indeed seemed during the entire auto trip of perhaps 20 miles, that all the hill in Columbiana county were covered with fruit trees. If they are not, they should be; for it doubtful if another county in the state is better, if so well, adapted to fruits of all kinds Natural water and air drainage, soil and subsoil just ideal.

The return trip was made at dan gerously near the speed limit; for we knew what was awaiting us. (You see we had left many of the ladies and all the lunch baskets, at the Tag gart home.) And we were not disap pointed, for near the house, under the wide spreading branches of a big Roxbury Russet tree, was the dinner, all ready for business. Everything refreshingly cool except the coffee, (Lehman brand) which was smoking

ot and aromatic. After the feast the program was taken up. H. A. Lehman, county ag-ricultural agent, Canfield, started the discussion of the question, "How to Fertilize an Orchard." Nearly all took an active part in the discussion except those of us who were "Too full for utterance." The question box also brought out many questions and answers to perplexing horticultural problems. Time for the program rather limited, but the general dis-cussion will surely result in great good; especially the inter-county fel-

lowship. Following the program the Colum blana county horticulturists present— and there were many of them—got together and fixed a date for the preliminary meeting whose object is the organizing of the Columbiana county

You Will Save Good Money

Of late there has been a great deal of talk about the reduction of prices, and some large stores in the larger cities have been selling goods at socalled greatly reduced prices. As an intelligent observer and reader you understand that these reductions have been made in most cases where the margin of profit has been too large in the first place.

very closely right along, and, therefore, could not make similar reductions. However, we assure you that the close prices we are now quoting are

We have been marking our goods

far below some of these so-called reduced prices, and you save money in buying here. We still have a few good Business

Suits at \$18, \$20, \$25 to \$28.

Fine Dress Suits in plain or mixed at \$28, \$30, \$35 to \$42.

We offer the best, made by the Clothcraft House, at from \$42 to \$48. These suits compare well with the socalled \$65 to \$75 suits advertised by some stores-even at their reduced prices you still save a good sum by buying here. And so with other lines-Shirts, Ties, Underwear, Collars, etc. Linen Collars have been advertised by some at reduced prices from 30c to 25c when our price for exactly the same collar has never been over 25c. They sold them too high or their reduction was of the so-called kind. The result was visible in Canfield. Why, we sold more than twice the number of collars, shirts, ties and more clothing than any other year. And if you have not found this out yet, come in and you'll soon be convinced that we have the goods and the low prices.

A delayed shipment of Ladies' Silk Hosiery, which we bought last summer, has just arrived and you can buy these at last summer's prices-\$1.50, \$2.00, \$2.25, \$2.50 up to \$3.50; in white, black, grey, and brown; are worth today
